that of Carlyle Harris. By agreement between District-Attor-By agreement between District-Attorney Nicoli and Charles W. Brooke, counsel for Dr. Robert W. Buchanan, charged with poisoning his wife in order that he might marry another woman, the case of Dr. Buchanan will be placed on the trial calendar for the first Monday in March, before Recorder Smyth. Dr. Buchanan was not brought down to court to-day. It has not yet been decided by the District-Attorney which of his assistants shall be assigned to the case, but probably it will be Francis L. Wellman, whose success in the simllar case of Carlyle W. Harris placed him in the front rank of public prose-

ilar case of Carlyle W. Harris placed him in the front rank of public prosecutors.

This case is similar to the Harris case in that the alleged victim was the wife of the accused; in that there was no suspicion of foul play till "The World" startled the community with an exposure of the whole story; in that the body of the alleged victim had lain long in the grave before the exposure, and in that the prosecution must rely for a conviction mainly upon circumstantial evidence, with scientific, medical and chemical testimony for its foundation.

In Dr. Buchanan's case, it is the theory of the prosecution that, after divorcing his first wife, he married the woman now dead to obtain her wealth. She is said to have been the misress of a notorious resort in Newark, and owned a good deal of property. After her death, and within three weeks, it is claimed, he remarried his divorced wife and paid up a lot of Boston debts with the money left by his alleged victim.

Assistant District-Attorneys Wellman and Osborne have prepared the Buchanan case.

Black kid is the most expensive glove in trade. Dust-gray dress kid is the best wear. In gr. Brown is durable and makes the hand inconspicuous.

Big hands look monstrous in white gloves. Only rich women can afford to buy undressed kid. Half the kid gloves in trade are not kid at all. Real kid caunot be bought under 23 a prin in this country.
